## EXPERIENCE

---

*The items highlighted in blue text can be clicked.*

### • MaidProfit

Frontend Developer

(remote) Ho Chi Minh City, Viet Nam

November 2023 - December 2023

- Designed and developed workflows for dynamic content and styles for each page throughout the entire [MaidProfit Website](#).
- Developed the [MaidProfit Blog](#) with full responsiveness, utilizing data retrieval from Directus via REST APIs, GraphQL, and the Directus SDK.

**Technologies:** Next.js, Tailwind CSS, Directus

### • Akselos SA

Software Engineer Intern

Ho Chi Minh City, Viet Nam

June 2023 - March 2024

- Implemented required features for Akselos Time Recording Tool, a web-based application designed to manage work hours and track project progress.
- Developed a Django server for the Akselos Time Recording Tool concurrently with developing a tool for the system administrator based on the existing Django Admin. Integrated OAuth2 into Django Back-end.
- Developed [Akselos Customer Support Dashboard](#) utilizing the Freshdesk Portal. Generated automated script to streamline article formatting with Liquid Markup and pure CSS, reducing sourcing team workload by 10%.
- Contribute to the Akselos Dashboard by developing a feature that enables users to conveniently visualize all folders they have access to or own (utilizing a Tree View).

**Technologies:** Next.js, React.js, TypeScript, MUI, Docker, Rust (Framework: Axum), Django, PostgreSQL, GitLab, Liquid Markup

## EDUCATION

---

### • Ho Chi Minh City University of Technology (HCMUT)

BE in Computer Science

Ho Chi Minh City, Viet Nam

October 2020 – November 2024

- (Thesis title) Research software architectures for low-code platform development to propose an architecture and build a demonstrative application.

**GPA:** 3.2/4
