PROFILE

With 4+ years of experience in front-end development, I have honed my skills in building **dynamic and responsive web/mobile applications** by applying fundamental technical such as **HTML, CSS, Javascript, Typescript, Vanilla.js, JQuery** and using modern library/framework like **React.js, Next.js, React Native**, and related.

My background includes leading cross-functional teams, optimizing web performance, deploying and maintaining scalable codebases using best practices in version control.

CAREER ORIENTATION

In the short term, I am dedicated to continuous learning and staying updated in front-end as well as researching back-end side using **Golang/Node.js**.

In the long term, I aim to lead innovative projects, mastering **full-stack** development to drive business growth and stay at technology's forefront.
