---

## PROFESSIONAL SUMMARY

- 3 years of experience in programming with strong knowledge of **JavaScript**, **TypeScript** and **C#** (**React.JS**, **NextJS**, **.NET**, **NestJS**).
- Experience in web development (HTML/CSS/SQL/MongoDB).
- Strong experience in working with **Restful API**, **GraphQL**.
- Experience in Windows, Ubuntu.

---

## CERTIFICATIONS

- **TOEIC**: 595 (2023).
- **Hackerrank**: JavaScript Basic, React Basic, Problem Solving Basic, C# Basic
- **FPT**: ReactJS Frontend Web Framework, AWS Cloud Services and Infrastructure.
- **Udemy**: Mastering TypeScript.  
Modern React with Redux.  
Docker for the Absolute Beginner - Hands On – DevOps.  
Build a Backend REST API with Python & Django – Advanced.  
Learn Restful Api's with Asp.Net Core 5.0Go: The Complete Developer's Guide (Golang).  
Redux Saga with React: Fast-track Redux Saga intro course.

---

## PROJECT EXPERIENCES

### GITA - Facility management

**FPT Software | Ho Chi Minh City, Vietnam**

Frontend developer

*January 2024 – May 2024*

- Participate in analyzing the business requirements to determine the optimal approach for the application.
- Construct the application based on the user interface design using **Antd**.
- Leverage **ReactJS** for frontend development, retrieving and displaying data from the backend.
- Conduct comprehensive and meticulous testing of all functions within the website/application, ensuring accuracy, functionality, and robustness.

### DEVICEON\_3.1 - Device management

**FPT Software | Ho Chi Minh City, Vietnam**

Frontend developer

*June 2023 – December 2023*

- Convert functions written in pure Javascript and JQuery from DeviceON version 3.0 to 3.1 using **ReactJS**, ensuring all functions work the same as on DeviceON version 3.0.
- Work on a Scrum team to develop products, engage in planning meetings, and provide estimates for features.
- Participate in researching and analyzing DeviceON version 3.0 documentation to understand business requirements.
- Construct the application based on the user interface design using **Antd**.
- Leverage **ReactJS** for frontend development, retrieving and displaying data from the backend.
- Participate in code reviews among teammates and openly discuss to get the best code quality.
- Write quality code implementations covered by unit tests written in Vitest and Jest.

### GVGA - Valor gym

**FPT Software | Ho Chi Minh City, Vietnam**

Backend Developer

*March 2023 – June 2023*

- Build a gym exercise management application, allowing trainers to monitor the exercise progress of trainees.
- Participate in designing the database and develop it using the Entity Framework Core code-first approach.

- Develop APIs and manage backend logic using **ASP.NET Core**.
- Interact with the application database using Entity Framework Core and **MySQL**.
- Leverage **MySQL Workbench** views to present data in an effective manner.
- Contribute to the database design process, aligning it with the business logic.
- Set up Mailjet SMTP server to send email.

## **AKAVIP - Viewpoint management**

**FPT Software | Ho Chi Minh City, Vietnam**

### **Frontend Developer**

*September 2022 – December 2022*

- Develop a web application to manage viewpoint collection and generate test case.
- Participate in building user interface wireframes to demo for customer.
- Created a flexible and dynamic role management system to govern authorization, allowing for granular control over user access and permissions within the application.
- Develop a merge feature similar git feature to merge two collections of viewpoints or products.
- Write documents describing source code for customer.

## **CURSUS - Teaching marketplace**

**FPT Software | Ho Chi Minh City, Vietnam**

### **Frontend Developer**

*April 2022 – May 2022*

- Translated design concepts into interactive and responsive web pages, focusing on a seamless user experience.
- Construct the application based on the user interface design using **React Bootstrap**.
- Leverage **ReactJS** for frontend development, retrieving and displaying data from the backend.
- Participate in code reviews among teammates and openly discuss to get the best code quality.
- Showcase the application's features to the customer.

---

## **EDUCATION BACKGROUND**

**University of Information Technology – GPA: 8.01/10**

**Ho Chi Minh City, Vietnam**

Engineer's Degree in Computer Network and Communication

*August 2018 – June 2023*

---

## **WORKING EXPERIENCES**

**FPT Software**

**Ho Chi Minh City, Vietnam**

### **Fullstack Developer**

*March 2022 – May 2024*

- Work in the **Scrum team** for developing products.
- Raise early concerns to Solution Designers, Product Owners, and Business Analysts.
- Technology: **ReactJS, .NET, AWS, Azure**.

---
